Why you should hire me?

1. I am an engineer, so I know how it works! I will take your organization to greater heights which until now you have not been able to achieve. I will do this through my innovative ideas, dedication and hard work. If you want to see the difference then I am ready to join today.
2. I've worked in software companies for several years (since 1998) and I'm well versed in a variety of projects.
3. I DO NOT get rest! I love to work, when I am tired I start another task! This is the key that now I am an engineer and a pilot also. I like to reading new topics and communicate with the others to what they are on to.
4. I do photography! It means that I know how to look situations.
